Alberta's Agricultural Processing Industry

FOREWORD

The Agri-Processing Branch at Alberta Agriculture, Food and Rural Development presents Alberta's Agricultural Processing Industry Directory as a reference for use by the business community, government agencies and other interested parties. It serves to update users with current company information including contact personnel, products and brand names.

The directory has been divided into four sections.

1. Alberta's Agricultural Processing Industry.

A general description of the agricultural processing industry in Alberta, including statistical graphs and charts.

2. Alphabetical Product Index.

Companies are listed according to broad product categories. Page numbers are provided for easy access to the complete company information.

3. Alphabetical Listing of Alberta's Agricultural Processing Companies.

Firms are listed in alphabetical order. Complete company information is provided including address, telephone, fax, email, web site, management contacts, export contacts, products and brands.

4. Alphabetical Listing of Industry Organizations.

Complete information is provided for key industry organizations including address, telephone, fax, email, web site, and contacts.

5. Index by Location.

Firms are listed by their location.

Considerable effort has been taken to ensure the accuracy of the company listings and information shown and we regret any errors or omissions. The directory was prepared by the collation of information made available to Alberta Agriculture, Food and Rural Development and neither the Department nor any of its employees assume any legal liability or responsibility for the accuracy, completeness or usefulness of the information. The listing of any company or product in this guide does not reflect an endorsement of the company or product by Alberta Agriculture, Food and Rural Development.

We ask your assistance in keeping this directory current. As changes occur in the information presented for any company or organization listed, or if you are an Alberta processor and wish to be included in the next edition, please contact:

Processing Development Division

Through four operating units, provides research and development facilities and services for agri-food processing companies, or those interested in non-food uses for agricultural products. All services are delivered in strict confidence in order to protect and respect the interest of the individual client.

Food Processing Development Centre

6309 - 45 Street, Leduc, Alberta CANADA T9E 7C5

Phone: 780- 986-4793

A modern, fully equipped pilot plant and product development laboratory facility staffed with experienced food scientists, engineers and technologists. Centre services are designed to strengthen and expand the capability of Alberta's food processors to meet the challenges of the marketplace through application of new technology and the development of new or improved products and processes.

Centre for Agri-Industrial Technology

6312 50th Street, Edmonton, Alberta CANADA T6B 2N7

Phone: 780- 427-8764

The facility is equipped with a product development laboratory, physical properties testing laboratory and pilot plant where a staff of engineers and technologists conduct research and development projects aimed at solving problems encountered by agricultural value-added processing. Our expertise is a key component to help in the development of food and non-food processing.

Food Science and Technology Centre

Crop Diversification Centre South, SS #4, Brooks, Alberta CANADA T1R 1E6 Phone: 403-362-1339

Staff at this facility conduct applied research in post-harvest handling, storage and value-added processing of horticultural and special crops and also provide technical leadership to ensure that Alberta companies have the specialized knowledge and capabilities to compete globally.

Consumer Product Testing Centre

106, 10030 - 107 Street, Edmonton, Alberta CANADA T5J 3E4

Phone: 780- 415-6268

The Centre provides comprehensive sensory evaluation services, which include both consumer acceptability and trained panel testing. Through the use of trained panels, researchers and industry assess the effect of ingredients and processes on their product initially and over time by measuring human responses that cannot be predicted by chemical or instrumental measures. Consumer panels are also used to measure product acceptability and can provide information about specific product attributes such as flavour, appearance, texture and packaging.

Alberta Economic Development
